

5.85 PRO

The 5.85 is a true offshore RIB capable of handling the most inhospitable sea conditions, her high sheer bow, deep V hull and full length spray rails give exceptional stability in rough weather whilst keeping the bow high in swells and heavy chop.

The Ribcraft 5.85 superior handling characteristics enable her to be powered by engines up to 150HP, giving a breathtaking performance. For normal usage engines between 90HP to 115HP will suffice, please talk to Ribcraft for advice on selecting the correct power unit for your application.

Ribcraft 5.85 has a large deck space with room for any application. Control cables are routed below deck keeping them from harms way and giving a totally clear deck. There is a host of accessories available: consoles, seating, propulsion and power options. The boat can therefore be customised to specific individual requirements whatever the application.
