RIBCRAFT DEEP-V HULL™

The Ribcraft 5.85 PRO is a proven offshore RIB, renowned for its exceptional seaworthiness and rugged dependability. Its high-sheer bow, deep-V hull design, and full-length spray rails ensure a stable, dry, and comfortable ride, even when facing challenging seas and inclement weather.

The RIB's robust fibreglass hull, non-skid deck, and heavy-duty Hypalon tubes guarantee exceptional durability and longevity.

Engineered for both performance and versatility, the 5.85 effortlessly handles up to 140HP for exhilarating speeds, yet remains remarkably efficient with 90-115HP for everyday use. Its generous deck space and fully customisable layout, with concealed cabling for safety and aesthetics, make it adaptable to a diverse array of missions, including professional maritime operations, sailing and yacht club support, daughter craft duties, and recreational use.
